

PRODUCT DATA SHEET

Enviro Floors – Wet Edge Extender

DESCRIPTION:

Enviro Floors Wet Edge Extender for the use with all waterborne polyurethane and acrylic based topcoats and sealers.

Using a food and cosmetic grade Humectant the water evaporation is slowed so as to enable more working time of the waterborne coating.

Typically, another 5 deg C of working temperature is achieved from the standard dose.

The result is that by using Wet Edge Extender coating can be conducted on floors on warm to hot days that would not otherwise be possible.

FEATURES:

- Use of Wet Edge Extender does not adversely affect finished coat properties or the time to which normal floor use after coating can occur
- Completely safe. The active humectant is commonly used in foodstuffs and cosmetics (e.g. Cold Creams to keep them wet longer).
- Can be used with all brands of waterborne Polyurethane and Acrylics

RECOMMENDED USES:

- As a Thinners for any waterborne Polyurethane topcoat or Acrylic sealer with material that may have thickened slightly with age
- As a Wet Edge Extender to allow for slowing of wet coat drying on warm to hot days.

DIRECTIONS FOR USE:

Add 50 ml per to 1Ltr of Finish. (To TopCoats)

For very hot days, especially if humidity is very low, 200 ml (2/3 cup) per 5 L

Shake for 30 seconds to incorporate.

PROPERTIES AND DATA

Ingredients	-	10% food grade humectant in water (multifunctional alcohol)
Colour	-	Crystal clear
Odour	-	Nil
Density	-	1.04 S.G.
Application	-	Stir into coating
Flammability	-	non-flammable
Stability	-	5 years in containers
Solids	-	10% active
Defoaming	-	No adverse influence
Coverage	-	25 ml per L normal use
Safety	-	Non-hazardous
Packaging	-	5 litre Refill recyclable Polyethylene bottle
